Find your unique device ID on the back of your device. Keep it safe for activation and in case you ever need support.

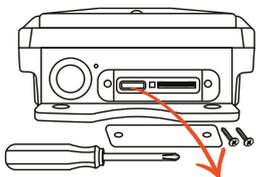

Welcome to PAJ GPS

Congratulations on purchasing a professional GPS tracker!

Following this guide will have your device set up and ready to track in just a few minutes.

1. Charge your device

1. Fully charge until red light turns off.
2. Do not turn on before activation (next step).

USB-C Charging Port

2. Activate your device

Keep your ID ready for activation.

1. Go to www.start.finder-portal.com or scan the QR code above.
2. Select your subscription package and term.
3. Choose optional service add-ons.

INFO: During checkout you will be asked to create a password. Your email and this password will be your login details for the FINDER Portal.

Why do I need a subscription?

Optimal coverage: The included SIM card automatically selects the best available network for seamless tracking.

Exclusive access: Get full access to our FINDER Portal. Your constantly updated, user focused tracking software.

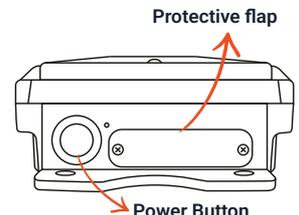

Secure & ad-free: Enjoy enhanced security and a smooth, ad-free experience.

Peace of mind: We offer a 30-day money-back guarantee if you're not satisfied.

3. Turn on your device

INFO: To connect for the first time, we recommend taking the device outside. This helps the tracker find a signal and calibrate faster.

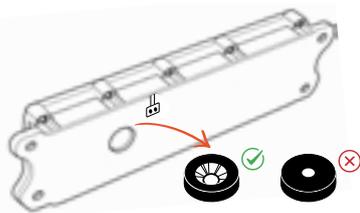

Protective flap

Power Button

Power on: Press and hold 3 sec
Power off: Via the app

4. Removal Alarm

1. Attach the magnetic sensor at the designated mounting location.
2. Then place the device with the hole on the underside onto the magnetic sensor.
3. Lifting the device will trigger an alarm.

Magnetic sensor

5. Get the FINDER Portal

1. Download the "PAJ Portal v2" app for iOS or Android, or go to www.finder-portal.com

Android-App

iOS-App

2. Log in with the account details you created during activation (Step 2).
3. Follow the in-app instructions to set up device.

The FINDER Portal at a glance

PAJ GPS offers its comprehensive and proprietary PAJ Portal v2 tracking app.

Enjoy enhanced security, reliability and regular updates with new features as a PAJ GPS customer.

Current location of the device

Traveled route

Access recent activity, routes and alerts instantly

All LEDs off: Device is in standby or off

Quick solutions

ISSUE: Tracker isn't connecting or shows "offline"?

Ensure the tracker is charged and turned on.

Update the app to the latest version.

To connect for the first time, take the device outside (see Step 3).

Make sure your phone is connected to the internet.

Restart the tracker by turning it off and on.

If the problem persists, please contact customer support.

We're here to help!

If you have any questions or need help, our top-rated Support Team is available 24/7 to assist you in 7 different languages. We're always ready to ensure your experience is smooth and hassle-free.
