LED BICYCLE Finder 4G

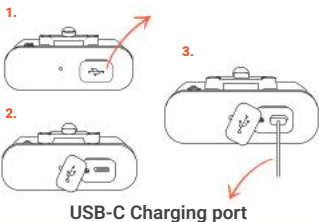

Quickstart guide
(Front page)

Schnellstart-Anleitung
(Rückseite)

1. Charge your device

- Fully charge until red light turns off.
- Do not turn on before activation (next step).

The device switches on automatically when connected to power.

2. Activate your Tracker

Unlock your access now:
3 months Premium subscription

- Go to www.start.finder-portal.com or scan the QR code.

- Enter FINDER ID (Found below the barcode on your GPS tracker)

Keep your unique device ID safe in case you ever need support.

- After entering the ID, click "I already have an activation code" at the bottom of the page.
- Enter code from the Activation card.

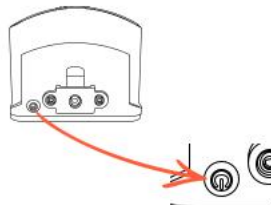

- Follow the steps and activate your free subscription.
- Upgrade anytime – a paid plan is required after the free period ends.

INFO: At the end of the activation, you will create a password. Your email and this password will be your login details for the FINDER Portal.

3. Turn on your device

INFO: To connect for the first time, we recommend taking the device outside. This helps the tracker find a signal and calibrate faster.

To turn on: press the button 1x.

Additional information ON/OFF

Turn tracker on/off
• On: press 1x
• Off: via the app

Delayed shutdown
Actual shutdown occurs after approx. 40 sec, as a shutdown alarm is sent to the server first. Once the 40 sec have passed, it can be turned on again.

Turn rear light on/off
Works only when the tracker is on!
• On: press 1x
• Off: press 1x

4. Get the FINDER Portal

- Download the "PAJ Portal v2" app for iOS or Android, or go to www.finder-portal.com

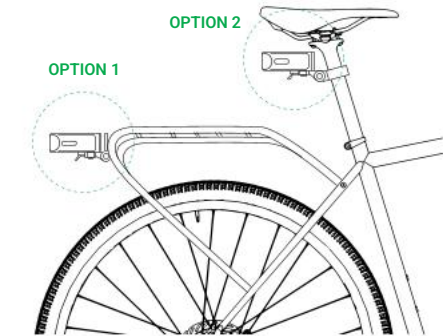

Android-App

iOS-App

- Log in with the account details you created during activation (Step 3).
- Follow the in-app instructions to set up device.

5. Where to install it

Two different options to install your device

Installation Guide:

<https://www.paj-gps.co.uk/installation/bicycle>

LED indicators

Orange (Network):
• Blinking - Searching for mobile network
• Solid light - Connection established

Blue (GPS):
• Blinking - Searching for GPS signal
• Solid light - Connections established

Stealth Mode Activation
The orange and blue LEDs will automatically turn themselves off after 5 minutes (the Tracker will stay on). To reactivate the LEDs, press ON/OFF 3 times.

Red Light (Constant On):
• With cable - Charging
• Without cable - Battery under 20%

All LEDs off:
Device it's turned off, on standby, or in stealth mode.

Quick solutions

ISSUE:
Tracker isn't connecting or shows 'offline'?

Ensure the tracker is charged and turned on.

Update the app to the latest version.

To connect for the first time, take the device outside (see Step 3).

Make sure your phone is connected to the internet.

Restart the tracker by turning it off and on.

If the problem persists, please contact customer support.
